SKILLS

Web Design

React

Node js

MongoDB

MYSQL

Firebase

Kotlin

ABOUT ME

I am a passionate and experienced software developer, dedicated to crafting user-friendly, optimized, and highly interactive applications. My journey began with an in-depth exploration of Node.js and React, where I completed certifications to solidify my knowledge. With relentless determination, I honed my skills by tackling various projects, refining my coding expertise, and pushing the boundaries of optimization. Now, I'm eager to embrace new challenges and continue creating exceptional software solutions

In addition to working on numerous client projects for the software company Barlasify, I recently completed a large medical easy coat company mobile application project. I have a track record of completing high-quality projects on schedule and on budget. I have extensive experience working with a variety of technologies, including React, Node.js, MongoDB, MySQL, Kotlin and Firebase.

WORK EXPERIENCE

Expertezo
May2021- Jul2021
Karachi

REACT DEVELOPER

In this work, I was responsible for developing online user interfaces as well as integrating the rest API from the back end to other websites.

Barlasify
Dec 2022 - Mar 2022
Karachi

FULL STACK MERN DEVELOPER

This was my online job, and my mission was to train the react intern developer and build the application's backend database, as well as connect it to the user interface.
